

# Batch Plant Parts and Equipment

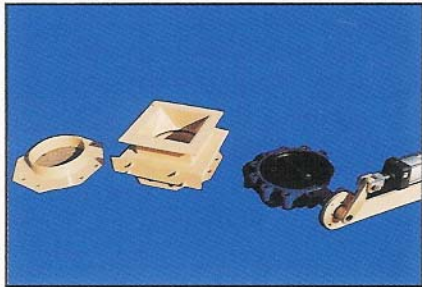

**BUTTERFLY VALVES:** From Water Valves to Cement Valves . 2" to 12" available.

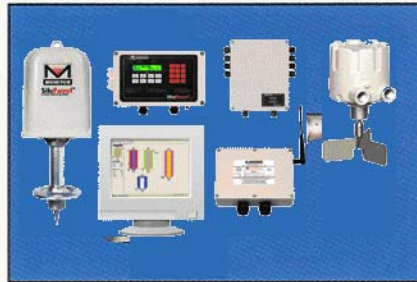

**AIR CYLINDERS:** Different Sizes Available. (2-1/2, 3-1/4, 4, and 5" Bore)

**SOLENOID VALVES:** Single, Double, Aeration, and water valves available.

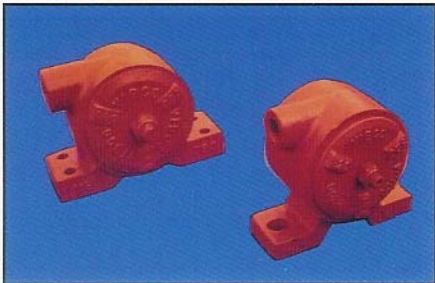

**BUTTERFLY VALVE ASSEMBLYS:** From any size to Retrofit any type plant. Replace any size Rotary Gate or Pinch Gate.

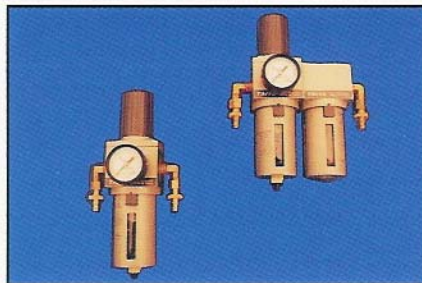

**Bin Level Indicators:** Available for Any Silo or Bin Design, Cement or Aggregate. Mechanical Type or Continuous Cable Style for Accurate Bin Level Measurement.

**WATER METER COMPLETE:** Badger Meters from 2 to 4 inch. 160-1,000 G.P.M.

**VIBRATORS:** Turbine Vibrators for Cement and Aggregate Hoppers designed for less noise around working facilities. (Pistons & electric Vibrators also available.)

**FR and FRL:** For moisture controls and lubrication to all components

**FR = Filter Regulator**  
**FRL Filter -Regulator Lubricator**

**PILLOWBLOCK BEARINGS:** for use on conveyors. **FLANGE BLOCK BEARING:** for use on conveyors and turnheads.

**ACTUATORS:** for operating butterfly valves on silos, batchers and watermeters.

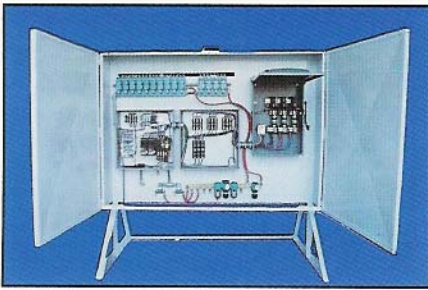

**POP-OFF VALVES:** New Style pressure relief valve for silos. Prevent excessive pressure inside silo.

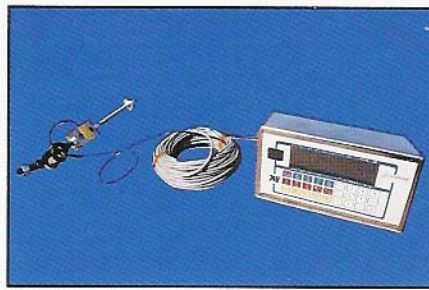

**CONTROL BOX:** Used in conjunction with Stephens control panels. Manufactured to meet your needs.

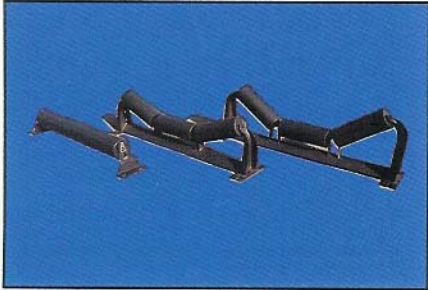

**CONTROL PANELS:** Freestanding panels come with solenoids, prewired to a junction box.

**LOAD CELLS:** Used in conjunction with digital readouts which are also available.

**TAILPULLEYS & HEADPULLEYS** Self cleaning wing pulleys for 24" and 30" belts. Rubber Lagged Head Pulleys for longer lasting wear on conveyor belts.

**IDLERS and RETURNS:** Troughing and Return Idlers with sealed bearings for less maintenance and longer service.

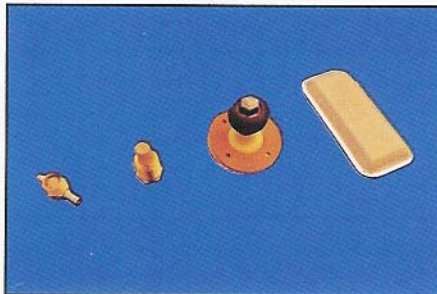

**BOOTS AND FLUMES:** Several sizes in stock and custom sizes available.

**GEAR REDUCERS & MOTORS:** Heavy industrial gear reducers to fit any size belt conveyor or screw conveyor. Totally enclosed fan cooled motors and size available to meet your needs.

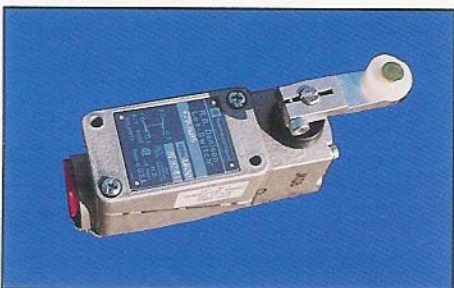

**AIR COMPRESSORS:** Compressors available in different tank sizes and different horsepower.

**AERATORS:** 4 different types to better suit your needs.

**CAMLOCK COUPLING and COVER:** Rust resistant aluminum camlock coupling and dust cover.

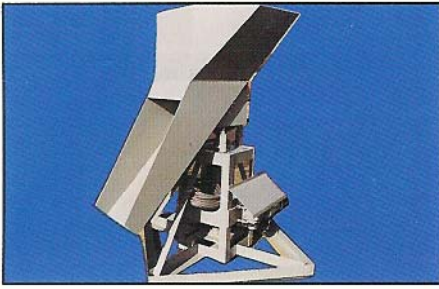

**LIMIT SWITCHES:** Used to determine positions on gates and turnheads, etc.

**TURNHEAD:** Used in conjunction with stationary conveyors to deliver aggregate to different bin compartments.

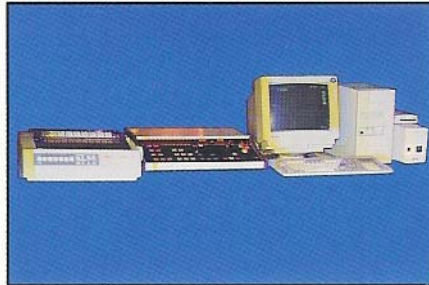

**COLLECTION HOPPERS:** New Style Collection Hoppers w/water ring for dust control and equal distribution of water and admixtures in truck drum.

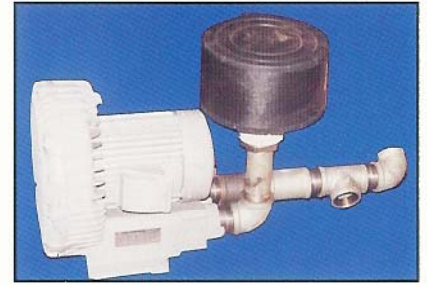

**SV-20 VENT:** Easily mounted on cement batcher for dust control. No electrical hookups required.

**GATES:** Custom Gates available. Gear or Link Mechanism. Skelton and Bolt-up gates we can retrofit your plant

**Command Alkon Batching Computers, Dispatch Systems and Truck Tracking.** Compatible with Printer and Dynamic Moisture Probe.

**AERATION BLOWER:** Ring type dry air blower perfect for aeration in silos & cement batchers.

**CARTRIDGE VENTS:** Pulse cleaning and easy cartridge replacement make these vents very attractive.

**SV-170 VENT:** 170 square feet of cloth with motor and bags installed. Also comes with adapter flange for easy installation. (Larger Vent Sizes are Available.)

**REPLACEMENT BAGS AND CARTRIDGE FOR FILTER VENTS**
